

What is Team Stripes?

Team Stripes is about how we work together to keep everyone safe in the clinical setting. Teams explore different approaches to enhance everyday practices and build partnerships with patients, family and carers.

Stripe 4

Sustainability

In this phase progress is reviewed and improvement priority planning is embedded as a business as usual practice.

Stripe 3

Improvement Priority

In working on identified priorities from Stripe 1, clinical teams are guided to resources aligned to their specialised needs.

Stripe 2

Safety Fundamentals for Teams

We look at tools to harness strengths and improve teamwork and communication. Safety fundamentals for teams lay the groundwork for building a culture of safety.

Stripe 1

Discovery

Clinical teams collect key information and measure the safety climate. Through facilitated discussion, priorities are agreed and an action plan developed.
