

So you're the blue team...

### Start the Challenge with:

#### The working diagnosis to be challenged is...

- Present the case for discussion as you normally would
- Give the Red Team an opportunity to ask questions and challenge the diagnosis

### Conclude the Challenge with:

#### The agreed working diagnosis is...

#### The ongoing plan / or plan for review is...

This will take into account:

- Planned and additional investigations
- Changes to the diagnosis
- Clinical management plan
- Time frame for follow-up and review

So you're the red team...

### Things to Consider

#### *Worst case scenario*

1. What is the worst case scenario?
2. Is this a time-critical problem requiring urgent action?
3. Have we ruled this out?

#### *Alternative diagnoses*

1. What else could this be?
2. Is this an atypical presentation of a common problem?
3. Are there any symptoms that don't fit?

#### *Investigations*

1. Do we have all the investigation results?
2. Do we need the proposed investigation? Will it rule in/out the differential diagnoses?
3. Is there another investigation that will provide the right information to answer the questions being asked?

#### *Ask the patient*

1. What do you think this could be?
2. Is there anything that you think doesn't fit?
