

1st July 2021

Dear Valued Customer,

NEW PACK SIZE
Quinine Dihydrochloride 6% Solution for Injection
Product Code INJ209

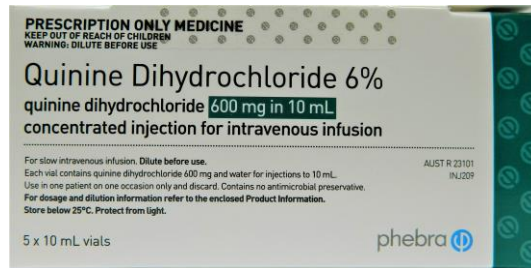

Phebra wishes to announce that supply of Quinine Dihydrochloride 6% Solution for Injection has commenced in a new pack size. Quinine Dihydrochloride 6% Sterile Concentrate Injection, AUST R 23101, is now supplied as a pack of 5 vials.

The Phebra product code for the pack of 5 vials is INJ209, and the price per pack is \$380.00.

Phebra has discontinued supply of Quinine Dihydrochloride 6% Solution for Injection in a pack of 10 vials, Phebra code INJ043.

Please update your systems accordingly.

Please note, in addition to the pack size change, minor edits have been made to the packaging to align with the TGO-91¹ Medicine Label Guidance requirements. The product formulation remains unchanged.
